

Appl. No. 10/021,133
Amdt. dated March 9, 2004
Reply to Office action of September 9, 2003

ABSTRACT

A digital scale is provided having a shell including a top cover and a bottom cover, a weight tray for receiving one or more items to be weighted and/or measured, and one or more removable tools carried on the shell. The removable tools are selected from any one of, of combination of, a spoon or tweezer.
